

MEMBER SPOTLIGHT

Josh Richer

1. What type of work do you do?

Electrical Engineer specializing in controls. I work on automating Substations and Hydro-Electric Power Plants for WPS.

2. If married, what is your spouse's name?

Not married. Dating a wonderful girl though.

3. How are you involved in aviation?

I have my private pilot license VFR. I own a Cherokee 140 and try to fly as much as I can. I try to volunteer my time with the local EAA chapter but my schedule doesn't allow that as much as I would like. During the week in the summer I try to fly to fly-ins.

4. Why did you join EAA Chapter 651?

I moved to Pulaski from Wausau and was/still am member of chapter 640 and 75 but I am not very active in those groups anymore. I wanted to be involved with the local EAA chapter here.

5. What are your aviation interests?

I am interested in almost all aspects but I particularly enjoy flying and the social aspect of aviation. I would like to get involved with seaplanes.

6. Do you have aviation –related goals? If yes, please describe briefly

I would like to get a seaplane rating and someday buy/build some type of amphibious aircraft.

7. Favorite airplane(s):

I don't think I have a favorite. I think they all are so cool. I will go with a cheesy answer and say the Wright Flyer because it got all this started.

8. What are your greatest non-aviation interests?

Woodworking and various projects

9. One thing most people don't know about me:

I managed to get third degree burns from snow

10. One thing I want to do in the next 3 years:

Get my seaplane rating.

11. My favorite food and/or restaurant:

Pizza and The Saloon in Gladstone, MI.

12. My favorite place to be:

With friends and family
