From the Prez

Dale Jorgensen, who has been our Designee (Technical Counselor) for our Chapter for several years has joined our Chapter. Several years ago EAA published a monthly Designee Newsletter which contained many helpful hints and shop talk for builders. I have saved several copies and the one I am looking through lists visits by the various Designees. This copy is the November 1981 issue and lists Dale checking a Cubby for the builder prior to the FAA inspection. I have seen his name in several other issues as well. A reminder, that if you ever have a need for a Technical Counselor, they do not receive any compensation from EAA. They do not request any pay, but appreciate what ever you offer to cover their expenses. Maybe we can have Dale tell us about some of his experiences through the years at one of our future meetings. We will start out the New Year at Nicolet Airport on Jan 10, 2011 at 7:00 PM.!! Your Prez. Clete

Dues are being

**accepted for 2011
\$20.00**

EAA Chapter 651

HAPPY NEW YEAR everyone!

Can't imagine what mother nature has in store for us this year but hopefully CAVU is at the top of the list:)

Looking at the "metar" and "taf" for GRB today (12/31) it doesn't appear too much will be landing or taking off today. Does everyone still know how to read those reports? I think we will have a little refresher at our January 10th EAA meeting. Paul Stutleen will be another year older and will have cake and ice cream for the celebration. This should entice everyone to come. HAPPY BIRTHDAY Paul!

Dustin Ridings will be our guest speaker at the Feb 14th meeting and he has some valuable and interesting info to share. Bring your sweetheart (Valentine Day)

We will take a vote on where to have the next Christmas Party and get your feedback on the Legends party.

Fly safe and informed and see you in the NEW YEAR!

CAVU.....Noel

Please, keep Gene Van Dehey and Don Kiel in your prayers after having some very extensive surgeries. Gentleman we expect you to get better soon so you can rejoin us in the air.

If you want to see a pretty good simulation of flight 1549 this is a good link. Thanks Bob for sending this. http://www.youtube.com/watch_popup?v=tE_5eiYn0D0#t=109

Bob Kirshling sent me this link to viewing the cockpit of the Enola Gay. I must say very interesting. <http://www.davidpalermo.com/data/slideshow/4/enolagay/index.html>
