How about a 2015 Airplane calendar that will be like the old calendars we made in our early days ? If you would email me a picture of your plane, the year/make/model and your name and birthdate (month and day only) we'll plan on having a calendar ready by the EAA Christmas party. I remember we really enjoyed the calendars in the past. If anyone has any suggestions, please let me know. nclarksky@att.net 621-1802 Thanks Noel

I would like to add some information to the newsletter:

Charlie Smith a newly minted CFI and CFII is offering a special price(\$30/hr) on BFRs and IPCs in your aircraft until 12/31/2014. I am forming an semi-accelerated instrument program that will normally cost \$4,000 for a 10 day program that is spread over the period of 4 weeks (each weekend for 1 month, plus evenings every other week day.). I am looking for 1 person who will be my first student while I work out the kinks in the program. This student will receive a \$2,000 discount on the program. You must have your own IFR capable aircraft to participate in this program. Please email charlie@pilotsmith.com for more information.
