It hardly seems possible that fall is just around the corner. A busy summer for sure and one that brought some interesting weather but hopefully some very interesting flying as well. Though as summer gives its last kick at the can, fall is out there somewhere and with luck will bring us some glorious flying over a spectacle of color. In my estimation fall is one of the most enjoyable times to get in the air and fly for the sheer joy of flying. That said, I think most pilots can make a pretty strong case that any time spent in the air, regardless of season, can be great.

The last meeting at Jay's was a great time as usual. It's always nice to spend some time there, hanging out and talking airplanes. This month up we're out at the South T's to spend time with the C.A.P. folks. From what I've heard, they have a great many things going on and are eager to share with us. Then October will bring us out to Nicolet for what is hopefully a beautiful fall evening.

One of the main projects we've been working on is the safety presentation and we were able to have a trial run of it with the Lawrence Fire Department. Thank you to those who were able to help, especially as it was a short notice request. All things considered, it went quite well and they were very happy with what our chapter provided them. With that under our belt, and some minor modifications based on what we learned from it, we'll be ready for the big show. We'll want to get some advertising out about it, so we'll check the calendar and set some future dates that can be planned on.

I think that about does it for now. Take some time to get some air under your wings when you can. Even better, take someone with you who is new to aviation and introduce them to one of the greatest thrills a person can partake in. Then bring them to the next meeting so we can all meet them! See you then.

Happy flying!

Dustin

Breakfast at Antique Aerodrome Saturday Sept 13th 7:00 am to 10:00 am. Rain or shine, 9WS2, 2592 Golden Glow Road De Pere, WI

8/20 Devon Barley; Private written

8/25 Seth Remy; Private written

How about a 2015 Airplane calendar that will be like the old calendars we made in our early days ? If you would email me a picture of your plane, the year/make/model and your name and birthdate (month and day only) we'll plan on having a calendar ready by the EAA Christmas party. I remember we really enjoyed the calendars in the past. If anyone has any suggestions, please let me know. nclarksky@att.net 621-1802 Thanks Noel
