From the Prez -

It won't be long now, save for a bit of snow to clear the area, and we'll be touching down on those fresh green blades of grass. Well, perhaps it will be a little while given that we've finally gotten some snow and more cold. All that aside, it's still a great time to begin gearing up for spring and summer flying activities so that when the meteorological conditions are where you want them, you can focus on flying rather than prepping.

Speaking of things coming up in the spring, the Chapter has a few events on the agenda, not the least of which is the fly-in breakfast. It is only February, but it will be here quicker than we like to think and there is some work to be done in anticipation of that. Perhaps the main task, at least early like this, is to get the word out. We found that to be something we overlooked last year and got the message out later than we wanted. Spread the word, talk to friends, share the message. We'll have some flyers printed up that can be distributed at various locales and dropped off when you visit other fly-ins.

Closer in the calendar than the fly-in is our presentation of the safety seminar to the New Franken Fire Department. We have that set up for the evening of February 25th and they are looking forward to it. If you'd like to come along, all are welcome. The more interaction we can have with them the better. Call or send me an email if you'd like to ride along; for those on that side of town, you could also meet us there if you wanted to reduce travel time if you prefer.

Wrapping things up, though we think of summer, there is some great flying to be had this time of year. If you're finding it's a bit too brisk for actual flying, consider doing some refresher training. Safety is no accident and a bit of time spent brushing up on the various skills may prove beneficial. Check out one of the many programs available online and make this month the month you get back to safety. Other than that, see you all at the next meeting, hopefully with a friend! Happy flying!

News - EAA Chapter 651 and Other

- **TIME CRITICAL! (DEADLINE MARCH 1ST)** - As we enter into 2015 we need to look at our applicants for EAA Airventure, this being Air Academy 2015 at Oshkosh. We need to share some of our chapter income toward education. Since the slots fill very quickly, if you know of anyone between the age of 12 and 17 interested in Aviation, have them fill out an application - Clete can help them with it. As mentioned during the meeting, if there is enough interest from students a "pre" screening form may be needed for chapter support. Submissions of a created form are welcomed. Contact [Clete Cisler](#).
- **PROGRAM DIRECTOR** - We are still looking for a program director. One of the main duties of the director position include procuring and setting up presentations during chapter meetings. If you feel that you would be the person to fill this very important position contact [Dustin Ridings](#).
- **REFRESHMENTS** - We are still looking for a Refreshments chairperson to supply food and drink to the chapter's meetings. Even a "one time" volunteer date would help considerably. A good way to show off that new recipe! Contact [Bob Kirschling](#) or [Dustin Ridings](#) for more information.
- **Reminder** - The chapter tools are still available in Clete's shop at Nicolet Airport. These include the 16" lathe & the new dolly. If you need to machine a piece of material, you're are welcome to use the lathe. Just let him know when it works in your plans. Contact [Clete Cisler](#). The tool list is available [here](#) & [here](#).
- 'Sponsor a Classroom' - At the Jan meeting Karen showed us an article from the Dec 14 Sport Aviation magazine. (pg. 110, top right) If you have recycled your issue an online version is [here](#). At this time it seems the program is still in the funding stage with it going live for the 2015 - 2016 school year. This is a program that we should keep our eye on. One may donate to 'Sponsor a Classroom' by going [here](#).
- On Saturday, January 31st around 72 people attended the SKYWARN® / Chili luncheon sponsored by the Green Bay IMC Club, EAA Chapter 651 and Brown County Civil Air Patrol Squadron. A fast paced presentation was put on by Ashley Allen of the Green Bay NWS forecast office. Below are a few links that were mentioned during the presentation along with a few others.
 - * Green Bay National Weather Service Weather Forecast Office [Severe Weather Spotter page](#).
 - * [Weather Spotters Field Guide](#) (.pdf)
 - * [CoCoRaHS](#) - Community Collaborative Rain, Hail and Snow Network.
