- **Youth Protection Plan** - May 1st is the deadline for pilots and support crew to receive certification in the *Youth Protection Plan*. This is **VITAL! We cannot advertise or support a Young Eagles event without certified crews.** More information is available at the EAA site.
  1. [Introduction](#) - From eHotline (21JAN16)
  2. [Policy overview, fags, implementation documents and online training instructions.](#)
  3. Reinforcing [letter](#) from Jack Pelton, EAA CEO/Chairman.
- **Brat / Burger Fry Fundraiser** - It's a go! On Saturday, April 23rd, chapter 651 will be providing brats / burgers to the masses as a fundraiser. It will be held at the [Festival Foods De Pere](#) location from 8:00am until 6:00pm for volunteers, serving grub from 11:00am until 5:00pm. **Volunteers needed!** It is split up into 2 shifts as to not take the whole day away. To volunteer see the sheet here - <http://bit.ly/1TEf7NJ> . If unable to modify the sheet contact Roman at [EAA\\_651\\_News@new.rr.com](mailto:EAA_651_News@new.rr.com) with the time slot requested. One does not need to do a full shift, any little bit will help.
- **Pancake Breakfast Fly-In, Drive-In** - The date is now 100% confirmed & available at Nicolet Airport. Mark the calendars for Sunday, May 15th, 7:30-11:00am. A few things need to be finalized.
  1. Will this be a Young Eagles event? Will we have pilots & (YPP) certified ground crew? This must be known before advertising can even happen - **TIME CRITICAL!** This must be answered fully at the March meeting.
  2. We need a volunteer as the primary organizer. Maybe just a veteran who has been to multiple pancake breakfasts will suffice. That person knows what's available at the clubhouse, what's needed etc.. And can provide event answers to anyone that requires information. See #4 below.
  3. Roman will take care of the volunteer signup, advertising & brochure creation.
  4. Much of the required information is on the 2015 spreadsheet . For 2016 we can use the same sheet and just modify it a bit if it is going to be a Young Eagles event. The 2015/2016 volunteer sheet is here - <http://bit.ly/1I8mZ0g> . As it shows now most of the "must do" items are there.
- **Aviation Day with the Boy Scouts of America** - Jay will be hosting 40 to 50 Boy Scouts along with parents / supervisors at [9WS2](#) on Saturday, May 21st starting at 10:00am. Jay is looking for Certified Young Eagle Pilots/Ground Crew along with others to fly in to have their aircraft as static displays. He is also looking for others to just "chat it up" with the scouts. The Scouts will be providing a cookout for lunch. More information from Jay will be forthcoming at the March meeting.
- **Website** - The chapter website, [651.eeachapter.org](http://651.eeachapter.org), has been maturing lately. It is getting closer and closer to being somewhat mobile phone friendly. In no way will it ever look like the desktop version of the site but it will contain the "content", which was missing - the most important part. 3 pages are remaining to be converted - Home, About Us & the portal. All others should be mobile phone friendly. For more info on viewing the site on a mobile device see [this post](#) in the site forum. On another note, the events page of the site includes "tentative" events. As more information comes in, per event, the page(s) / events will be updated.
- **Fly Baby Project** - The Fly Baby project acquired by Mike Berow as a project for middle/high school students needs a new home. Any ideas for a new home or as a chapter project contact Mike at [mabero1262@gmail.com](mailto:mabero1262@gmail.com).

- Continued -

- **Program Director** - We are still looking for a program director. One of the main duties of the director position include procuring and setting up presentations during chapter meetings. If you feel that you would be the person to fill this very important position contact [Dustin Ridings](mailto:dustin.ridings@att.net) (dustin.ridings@att.net).
- **Reminder** - The chapter tools are at Clete's shop at Nicolet Airport.. Contact [Clete Cisler](mailto:cncisler5@yahoo.com) (cncisler5@yahoo.com) to arrange a pickup or timeslot to use the lathe. The tool list is available [here](#).

## Tidbits..

Submissions from fellow members, around the internet & elsewhere.

[Video](#) - I remember my first time taking the controls of an aircraft, Jay's C170, will never forget it. A fellow friend & flight simulator race teammate was on vacation just a few weeks before the race in the French Alps for skiing. Nick Wood got his first time at the controls at all places.... Courchevel ([LFLJ](#)) !!! He had controls from just after take off to just a few feet from landing.

[Video](#) - [The Flight Simulator Around the World Race](#).. An unhealthy endeavor, 3 + days of flying, planning & scouting with very little, if any, sleep. What does one do after winning the race & partying with teammates after the race? Fly home... This video is of myself coming into a foggy GRB after a ~5 hour flight from Daniel Oduber Quiros Intl ([MRLB](#) - The start/finish location) in my personal, vintage, what if, paint of a B763. A 14 hour nap occurred just after landing.
